Doom Emacs Configuration

- 1 Note: If you want a proper Emacs Config, look here:
- 1.1 Credit:

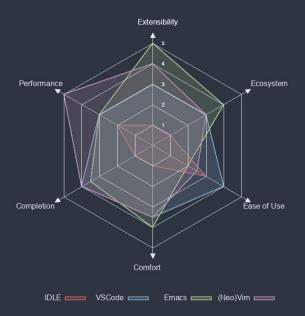

2 Intro

Real Programmers Real programmers set the universal constants at the start such that the universe evolves to contain the disk with the data they want.

Cautionary This really is a true story, and she doesn't know I put it in my comic because her wifi hasn't worked for weeks.

2.1 Why Emacs?

2.1.1 The enveloping editor

2.2 Notes for the unwary adventurer

*

2.2.1 Extra Requirements

3 Doom Configuration

3.0.1 Mo	odules			

0.0	D 1		
.0.2	Packages		

4 Basic Configuration	
4.1 Personal information	
4.2 Authinfo	
4.3 Emacsclient	

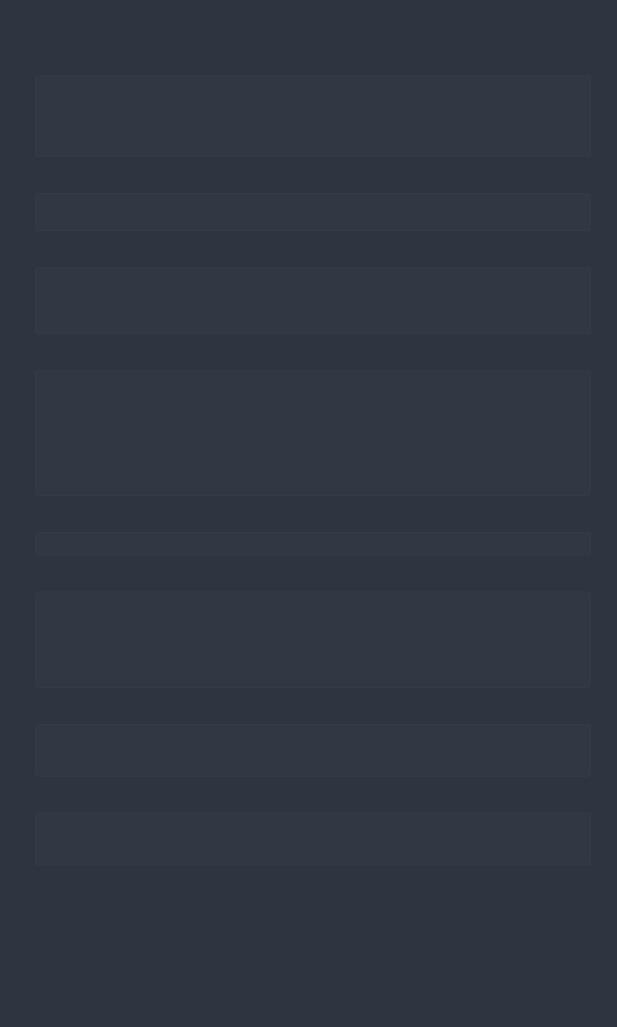

4.4 \$	Shell		
4.4.1	Vterm		
		MY HOBBY: GETTING TYPOGRAPHY GEEKS HEARTFELT CARDS PRINTED IN "PAPYRUS" AND WATCHING THEM STRUGGLE TO ACT GRATEFUL. THANK YOU FOR THE "TUTCH" LOVELY	

Papyrus I secretly, deep in my guilty heart, like Papyrus and don't care if it's overused. [Cue hate mail in beautifully-kerned Helvetica.]

4.5 Fonts		

4.6	Themes			
4.7	Very large files			
4.8	Company			

4.9 LSP
4.10 Better Defaults

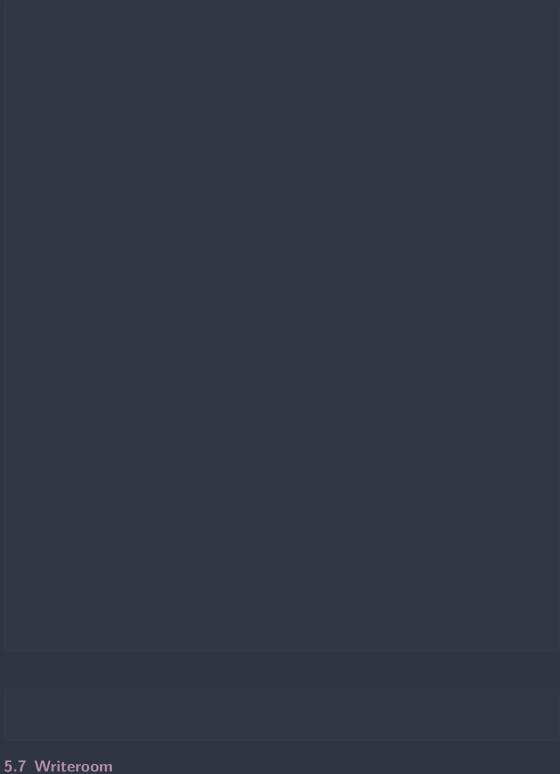

4.11 Selectric mode
5 Visual configuration
5.1 Modeline

5.2 Centaur tabs		

5.3	3 Vertico			
5.4	Treemacs			
5.5	i Emoiis			

5.6 Splash screen		

5.8 Font Display		

5.8.1 Fontifying in	line src blocks		

5.9 Symbols	

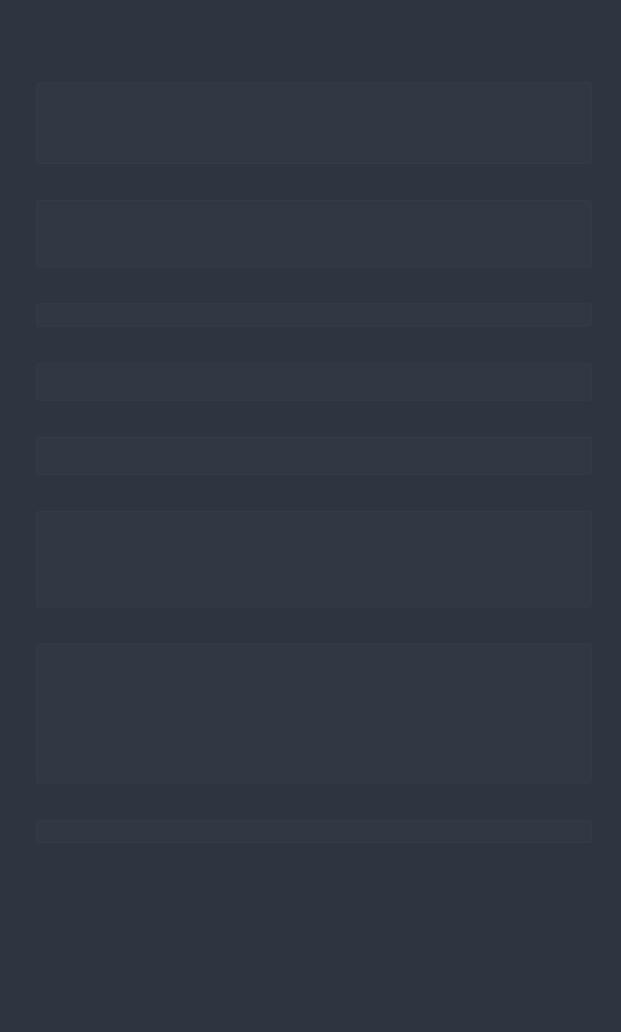

5.10	Keycast			
5.11	Transparency			

5.12 Screenshots

5.13 RSS			

6 Org

6.1 Org-Mode

6.1.1 HTML		

6.2 Org-Roam		

6.3 Org-Agenda		
6.4 Org-Capture		
6.4.1 Prettify		

6.4.2 Templates
